General advice
Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

Component A, F and G: Not Applicable

Component B

*Inhalation:* If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

*Ingestion:* Never give anything by mouth to an unconscious person. Rinse mouth with water.

*Skin:* Wash off with soap and plenty of water.

*Eyes:* Flush eyes with water as a precaution.

Component C

*Inhalation:* If breathed in, move person into fresh air. If not breathing give artificial respiration consult a physician.

*Ingestion:* Induce vomiting and call for medical help.

*Skin:* Generally this component does not irritate the skin

*Eyes:* Rinse thoroughly with plenty of water for at least 15 minutes.

Component D

*Inhalation:* If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

*Skin:* Wash off with soap and plenty of water. Consult a physician.

*Eyes:* Flush eyes with water as a precaution.

Component E

*Inhalation:* Move to fresh air. If symptoms persist, call a physician. If not breathing, give artificial respiration.

*Ingestion:* Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

*Skin:* Rinse with plenty of water. If symptoms arise, call a physician.
Eyes: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If symptoms persist, call a physician.

5. Fire Fighting Measures

Extinguishing media:
- **Component A, F and G**: Not Applicable
- **Component B**: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
- **Component C**: CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam
- **Component D**: For small fires, use alcohol resistant foam, dry chemical, or carbon dioxide. For large fires, use water spray from a safe distance.
- **Component E**: Water spray. Carbon dioxide (CO2). Foam. Dry chemical.

Special firefighting procedures:
- **Component A, F and G**: Not Applicable
- **Component B**: Wear self-contained breathing apparatus for firefighting if necessary.
- **Component C**: No special measures required

- **Component E**: Wear self-contained breathing apparatus and protective Suit.

Unusual fire and explosions hazards:
- **Component D**: Combustible liquid and vapor. Vapors are heavier than air and may travel to a source of ignition and flash back. Vapors can spread along the ground and collect in low or confined areas. Hazardous carbon oxides and sulphur oxides formed under fire conditions.
- **Other Components**: None

6. Accidental Release Measures

Containment and spill response
- **Component A, F and G**: Not Applicable
- **Component B**: Keep in suitable, closed containers for disposal. Immediately contact emergency personnel. Prevent further leakage or spillage if safe to do so. Avoid breathing vapors or mist. Remove all sources of ignition and provide ventilation. Collect with an electrically protected vacuum cleaner, by wet-brushing, or by absorbing with vermiculite, sand or earth, and place in appropriate container for disposal. Do not let material enter drains.
- **Component C**: Wear protective equipment. Keep unprotected persons away.
- **Component D**: Immediately contact emergency personnel. Prevent further leakage or spillage if safe to do so. Avoid breathing vapors or mist. Remove all sources of ignition and provide ventilation. Collect with an electrically protected vacuum cleaner, by wet-brushing, or by absorbing with vermiculite, sand or earth, and place in appropriate container for disposal. Do not let material enter drains.
- **Component E**: Soak up with inert absorbent material

PPE
- Use personal protective equipment

7. Handling and Storage

**Component A, C**: Keep in dry place.
Component B: Keep container tightly closed in a dry and well-ventilated place.
Component D: Handling: Wash thoroughly after handling. Remove and wash any contaminated clothing. Keep container tightly closed and avoid contact with eyes, skin, and clothing. Use with adequate ventilation and avoid ingestion and inhalation. Keep away from heat and flame.
Storage: Store in a tightly closed container away from moisture, heat, and flame. Store away from incompatible substances. Storage under a nitrogen blanket has been recommended.
Component E:
