### 5. Fire Fighting Measures

**Extinguishing media:**
- **Component A, B and E:** For small fires, use dry chemical, or carbon dioxide. For large fires, use water spray from a safe distance.
- **Component C and D:** Use water spray, dry chemical or carbon dioxide.
- **Component F:** Use water spray, dry chemical or carbon dioxide.

**Special firefighting procedures:**
- **Component A, B and E:** Fire fighters should wear positive pressure self-contained breathing apparatus (SCBA) and full turnout gear.
- **Component C, D and F:** Wear self-contained breathing apparatus (SCBA) if necessary.

**Unusual fire and explosions hazards:**
- **Component A, B and E:** Combustible liquid and vapor. Vapors are heavier than air and may travel to a source of ignition and flash back. Vapors can spread along the ground and collect in low or confined areas. Hazardous carbon oxides and sulphur oxides formed under fire conditions.
- **Component C, D:** Hazardous carbon oxides, sodium oxides, and nitrogen oxides (NOx) formed under fire conditions.
- **Component F:** Hazardous carbon oxides and sulphur oxides formed under fire conditions.

### 6. Accidental Release Measures

**Containment and spill response**
- **Component A, B and E:** Immediately contact emergency personnel. Prevent further leakage or spillage if safe to do so. Avoid breathing vapors or mist. Remove all sources of ignition and provide ventilation. Collect with an electrically protected vacuum cleaner, by wet-brushing, or by absorbing with vermiculite, sand or earth, and place in appropriate container for disposal. Do not let material enter drains.
- **Component C and D:** Do not let material enter drains. Keep in suitable, closed container for disposal.
- **Component F:** Keep in suitable, closed container for disposal. Do not let material enter drains.

**PPE**
- Use personal protective equipment

### 7. Handling and Storage

**Component A, B and E:**
- **Handling:** Wash thoroughly after handling. Remove and wash any contaminated clothing. Keep container tightly closed and avoid contact with eyes, skin, and clothing. Use with adequate ventilation and avoid ingestion and inhalation. Keep away from heat and flame.
- **Storage:** Store in a tightly closed container away from moisture, heat, and flame. Store away from incompatible substances. Storage under a nitrogen blanket has been recommended.

**Component C and D:**
- **Handling:** Avoid contact with skin and eyes.
- **Storage:** Keep container tightly closed in a dry and well-ventilated place.

**Component F:**
- **Handling:** Avoid contact with skin and eyes.
Storage: Store in a tightly closed container in a dry place at -20°C.
