# **Safety Data Sheet (SDS)**

Revision Number: 3.0	Last updated 25 July 2019
1. Product and Company Identification	<u>on</u>
Product Name:	MBP (88-104), guinea pig; MBP (89-105), human; MBP (86-102), mouse  Ac – FFK NIV TPR TPP PSQ GK - NH2
Manufacturer/Supplier:	AnaSpec, Inc.  www.anaspec.com  34801 Campus Drive Fremont, CA 94555 Tel: 510-791-9560 Fax: 510-791-9572 Email: service@anaspec.com  Kaneka Eurogentec SA, Parc Scientifique du Sart Tilman 4102 Seraing Belgium Tel. +32-4-3727400 Fax. +32-4-3727500 E-mail scientific.support @eurogentec.com  Kaneka Eurogentec Helpdesk
Catalog Number	Tel. +32-4-3727665 AS-60977
Relevant identified uses of the substance/preparation and uses advised against	For laboratory use only.
Emergency information	Please contact the regional Eurogentec representation in your country or Kaneka Eurogentec S.A. directly. (from 8 am to 6 pm)
2. Hazards Identification  Emergency Overview: We contained all chemicals with caution protective againment (PDF), when her	do recommend no. Use proper

protective equipment (PPE) when handling chemicals. To our knowledge, the hazards of this material have not been thoroughly investigated.

May elicit an immune response such as skin and/or respiratory tract irritation. Wear PPE.

GHS Hazard Classification:

GHS Physical Hazards: Not a dangerous substance according to the GHS

GHS Health and Environmental Hazards

GHS Signal Words: None

GHS Hazard Statements: H303, H313, Maybe harmful if swallowed or in contact with skin. Wear PPE.

GHS Precautionary Statements: P302, P340 May be respiratory irritant if inhaled. May cause respiratory tract irritation.

Potential Health Effects for:

*Inhalation:* If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Good hygiene practice requires that exposure be kept to a minimum and that suitable control

measures be used in an occupational setting.

Ingestion: If swallowed, wash out mouth with water provided person is conscious. Call a physician.

Skin: In case of contact, immediately wash skin with soap and copious amount of water.

Eyes: In case of contact, immediately flush eyes with copious amounts of water for at least 15 minutes.

Chronic Exposures: No information available. We recommend limiting prolonged exposure.

Target Organs: No information available

HMIS Classification

Health hazard: 0

Chronic Health Hazard: 0

Flammability: 0
Physical hazards: 0

NFPA Rating

Health hazard: 0

Fire: 0

Reactivity Hazard: 0

## 3. Composition

Ingredients/Components:

Chemical Name: MBP (88-104), guinea pig; MBP (89-105), human; MBP (86-102),

mouse

Ac – FFK NIV TPR TPP PSQ GK - NH2

Molecular formula: NA Molecular weight: 1956.0

CAS-No NA EC-No NA

#### 4. First Aid Measures

Inhalation:	•	e from contaminated area.	
	<u> </u>	w nose to ensure clear passage of breathing.	
		t persists seek medical attention.	
Ingestion:	If swallowed do <b>NOT</b> in	duce vomiting.	
	If vomiting occurs, lean	If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to	
	maintain open airway ar		
	Observe the patient care		
		nouth, then provide liquid slowly and as much as casualty can comfortably	
	drink.		
	Seek medical advice.		
Skin:	If skin or hair contact oc	oure:	
		- <del></del> -	
	Flush skin and hair with running water (and soap if available).		
Г	Seek medical attention in event of irritation.  If this product comes in contact with the eyes:		
Eyes:			
		Wash out immediately with fresh running water.	
		on of the eye by keeping eyelids apart and away from eye and moving the	
		lifting the upper and lower lids.	
	If pain persists or recurs	seek medical attention.	
	•		
5. Fire Fight	ing Measures		
		Without Control	
Extinguishing	теана:	Water spray or fog.	
		Alcohol resistant foam.	
		Dry chemical powder.	
		BCF (where regulations permit).	
		Carbon dioxide	
Special firefig	hting procedures:	Alert Emergency Responders and tell them location and nature of	
		hazard.	
		Wear breathing apparatus plus protective gloves.	
		Prevent, by any means available, spillage from entering drains or water	
		course.	
		Use water delivered as a fine spray to control fire and cool adjacent	
		area.	
		<b>DO NOT</b> approach containers suspected to be hot.	
		Cool fire exposed containers with water spray from a protected	
		location.	
		If safe to do so, remove containers from path of fire.	
		Equipment should be thoroughly decontaminated after use.	
		Equipment should be thoroughly decontainmated after use.	
Umagaigh Gua	and explosions hazards:	Emits toxic fumes under fire conditions	
Onusuai jire t	ina explosions nazaras:	Emilis toxic fumes under fire conditions	
6. Accidenta	l Release Measures		
Spill response	Remove	all ignition sources.	
T. I. I Sop G. IISC		all spills immediately.	
		ntact with skin and eyes.	
		ersonal contact by using protective equipment.	
		lean up procedures and avoid generating dust.	
		suitable, labeled container for waste disposal	
		personal contact, including inhalation.	
	Wear pro	tective clothing when risk of exposure occurs.	

	Use in a well-ventilated area.
	DO NOT enter confined spaces until atmosphere has been checked.
	DO NOT allow material to contact humans, exposed food or food utensils.
	Avoid contact with incompatible materials.
	When handling, DO NOT eat, drink or smoke.
	Keep containers securely sealed when not in use.
	Avoid physical damage to containers.
	Always wash hands with soap and water after handling.
	Use good occupational work practice.
	Empty containers may contain residual dust which has the potential to accumulate
	following settling. Such dusts may explode in the presence of an appropriate
	ignition source.
	Do NOT cut, drill, grind or weld such containers
PPE	Use personal protective equipment

# 7. Handling and Storage

Store at -20 °C desiccated and protected from light. Store away from oxidizing agent.

# 8. Exposure Controls / Personal Protection

or Emposure Comercia	7, 1 0 1 5 0 1 m 1 1 0 0 0 0 1 0 1 1 1 1 1 1 1 1 1
Engineering controls	Local exhaust ventilation is required where solids are handled as powders or crystals; even when particulates are relatively large, a certain proportion will be powdered by mutual friction.  Exhaust ventilation should be designed to prevent accumulation and re-circulation of particulates in the workplace.  If in spite of local exhaust an adverse concentration of the substance in air could occur, respiratory protection should be considered. Such protection might consist of:  (a): particle dust respirators, if necessary, combined with an absorption cartridge;  (b): filter respirators with absorption cartridge or canister of the right type;  (c): fresh-air hoods or masks
	Build-up of electrostatic charge on the dust particle, may be prevented by bonding and grounding.  Powder handling equipment such as dust collectors, dryers and mills may require
	additional protection measures such as explosion venting.  Air contaminants generated in the workplace possess varying "escape" velocities which, in turn, determine the "capture velocities" of fresh circulating air required to efficiently remove the contaminant.
PPE	Use personal protective equipment

# 9. Physical and Chemical Properties

Physical State	Solid
Odour	Not available
Solubility in Water	Not available
Specific Gravity	Not available
рН	Not available
Boiling Point	Not available
Melting Point	Not available
Flash Point	N/A
Vapor Pressure:	N/A
Vapor Density:	N/A

Toll-Free: 800-452-5530 • Tel: 510-791-9560 • Fax: 510-791-9573

10. Stability and Reactivity		
Thermal Decomposition	No data available	
Dangerous Products of Decomposition	No data available	
Dangerous Reactions	COx, NOx when burned	

Keep container tightly closed in a dry well-ventilated place. Store in -20°C refrigerator.

#### 11. Toxicological Information

RTECS Number	N/A
Toxicity	No information available.
Health Hazards	Although ingestion is not thought to produce harmful effects, the material may still be damaging to the health of the individual following ingestion, especially where pre-existing organ (e.g. liver, kidney) damage is evident. In an occupational setting however, ingestion of insignificant quantities is not thought to be cause for concern.
Potential Hazards	Not available
Carcinogenicity:	No significant acute toxicological data identified
OSHA Permissible Exposure Limit(PEL) Data	N/A
ACGIH Threshold Limit Values (TLV)	N/A

Reproductive Toxicity: No information available

#### 12. Ecological Information

No information available.

#### 13. Disposal Considerations

All waste must be handled in accordance with local, state and federal regulations. Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws operating in their area. In some areas, certain wastes must be tracked.

#### 14. Transport Information

Hazard Class	N/A
Identification Number	N/A
Packing Group	N/A
Proper Shipping Name (DOT)	N/A

#### 15. Regulatory Information

California Proposition 65: N/A

US TSCA (Toxic Substance Control Act): N/A

US CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act: N/A

US SARA Title III (Superfund Amendments and Reauthorization Act: N/A

US Other: N/A

EC EINICS (European Inventory of Existing Commercial Chemical Substances) Number: N/A

EC Risk Statements: N/A

Other Country Regulations: N/A

#### 16. Other Information

It is not intended for food, drug, household, agricultural or cosmetic use. A technically qualified individual experienced in handling potentially hazardous chemicals must supervise its use. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Users should make independent decisions regarding completeness of the information based on all sources available. AnaSpec shall not be held liable for any damage resulting from handling or from contact with the above product.
